Snack lunch & refreshments
provided

FOCUS

How are candidates assessed during the FCE and CAE speaking tests? This seminar is designed to give you real in-depth understanding of how students are evaluated during the speaking test, using the Cambridge speaking test criteria. We'll watch and assess a wide range of performances, from weak to strong; we'll discuss the evaluations and suggest classroom activities for improving the communication skills tested, so that your students really do their best on the day.

Participants will receive ready-to-use materials for classroom activities and there will be a prize draw with FCE and CAE Speaking materials to be won.

SPEAKER

The seminar will be produced and given by Susan Gilbert, appointed by University of Cambridge ESOL Examinations as Professional Support Leader for the Speaking Tests with responsibility for Switzerland.

BOOK TABLE

There will be a book exhibition showing a selection of books on speaking test methodology as well as teaching FCE/CAE speaking in the classroom.
